## SUMMARY

Backend Developer skilled in Java, Spring Boot, Spring Cloud, and Microservices architecture, with hands-on experience building production-grade REST APIs and event-driven systems. Built OrderFlowX — a microservices e-commerce backend with 5 independent services, Kafka-based async communication, API Gateway, and Razorpay payment integration. Completed a web development internship delivering backend APIs for a real-world product. Solved 150+ DSA problems on LeetCode. Seeking a Backend / Java Developer role.

## TECHNICAL SKILLS

|                                      |                                                                                        |
|--------------------------------------|----------------------------------------------------------------------------------------|
| <b>Languages:</b>                    | Java, JavaScript (ES6+)                                                                |
| <b>Backend:</b>                      | Spring Boot, Spring Cloud, Spring Security, JWT, REST APIs, Maven, Node.js, Express.js |
| <b>Microservices &amp; DevOps:</b>   | Spring Cloud Gateway, Eureka, Kafka, Docker, Kubernetes, CI/CD, GitHub Actions         |
| <b>Databases:</b>                    | PostgreSQL, MongoDB, MySQL                                                             |
| <b>Tools:</b>                        | Postman, Git, GitHub, IntelliJ IDEA, Docker Compose, VS Code                           |
| <b>Frontend (working knowledge):</b> | React.js, Tailwind CSS, HTML5, CSS3, Bootstrap 5                                       |

## INTERNSHIP EXPERIENCE

### Web Development Intern | Elite Softwares, Pune

Dec 2024 – Mar 2025

- Built 10+ REST APIs for a Hotel Booking Application covering room search, booking management, cancellation, and user authentication; designed database schemas and handled input validation with proper error handling.
- Deployed the application to production — configured environment variables, managed domain setup, and fixed server issues post-deployment.
- Tech: Python, Django, REST APIs, PostgreSQL, Postman

## PROJECTS

### OrderFlowX – E-Commerce Payment Gateway & Order Orchestrator | [GitHub](#)

Java, Spring Boot, Spring Cloud Gateway, Eureka, Kafka, PostgreSQL, Docker, Maven

- Architected a microservices backend with 5 independent services (User, Order, Inventory, Payment, API Gateway), registered with Eureka Service Discovery and routed via Spring Cloud Gateway; containerized using Docker and Docker Compose.
- Integrated Apache Kafka for async inter-service communication between Inventory and Payment services, eliminating blocking dependencies; implemented end-to-end Razorpay payment flow from order creation to CONFIRMED status.
- Frontend built with React 19 and Vite (JWT-authenticated routes, cart, order history) to complete the end-to-end system.

### Hotel Booking Platform (Airbnb Clone) | [GitHub](#) | [Live Demo](#)

Java, Spring Boot, Spring Security, PostgreSQL, JWT, Maven

- Built a full-stack hotel booking application with role-based access for Admin and User; designed backend logic for property, room, and amenity management.
- Implemented authentication using Spring Security and JWT with separate Admin and User roles; added server-side date-overlap validation to prevent conflicting room bookings.

### Voting Management System | [GitHub](#) | [Live Demo](#)

Node.js, Express.js, MongoDB, JWT, SendGrid, Multer

- Built a full-stack voting platform with Admin and Voter roles; implemented JWT authentication, bcrypt password hashing, email OTP verification via SendGrid, Aadhaar document upload via Multer, and 18+ age validation at signup.
- Admin dashboard supports election creation, candidate management, and real-time vote tracking; automated result declaration on election end with all API routes secured with JWT middleware.

## EDUCATION

- Bachelor of Engineering (B.E.) – Computer Engineering | Alard College of Engineering & Management, Pune (Savitribai Phule Pune University) Jun 2026 | CGPA: 6.98/10
- Higher Secondary Certificate (HSC) – Class XII (Science) | Maharashtra State Board 2021 | 76.17%

## CERTIFICATIONS

- Spring Boot Microservices, Apache Kafka, Docker, Kubernetes, CI/CD & Spring AI — [Coding Shuttle](#) Mar 2026)
- Java DSA & MERN Stack Web Development — [Apna College](#) | 150+ problems solved (LeetCode)
